

Spanish Classes

Prepared by: Delia Sánchez Martín, Spanish as a Foreign Language Teacher

January 24, 2017

Days available: Monday to Friday.

Days not available: Saturdays and Sundays.

Place: Skype

Material: All class material included, all tailored to the students needs.

Method: I teach in Spanish from the beginning, if you need to use English in class it won't be a problem but I usually encourage my students to speak in Spanish from the very beginning, it's fun! This classes are focused on speaking and understanding with some writing practice on the side. We talk about Spanish culture to be able to understand what's behind the language through reading, music, videos or podcasts.

Cancelation policy: if you cancel 24 hours before the class starts, there is no charge.

Technical problems: rarely we will have this problems but, if the problem makes the class impossible to follow after 15 minutes, we will postpone it, make up or add the time to the package you have chosen.

Help: if you have questions about Spanish language outside class time, you can send them to me and I will answer as soon as possible.

Holidays: flexible.

Levels

- **Beginners:** Learn all the basics and speak from the first day!
- **Intermediate:** Review the basics and improve what you know while you learn new things!
- **Advanced:** Improve and practice what you know and learn a whole lot more!

European Levels:

- **Beginners:** A1, A2
- **Intermediate:** B1, B2
- **Advanced:** C1, C2

If you are interested in taking lessons with me, these are the conditions

If you are interested in taking classes with me or if you have more questions, please don't hesitate to contact me.

¡Hasta pronto!
Delia Sánchez

Spanish Classes

Prepared by: Delia Sánchez Martín, Spanish as a Foreign Language Teacher

Why learning with me?

1. I love to teach.
2. I am very flexible.
3. I am available to answer questions outside of class time.
4. The material used is always targeted to my students' needs.
5. No need of a book unless you need it for a specific reason (like an exam).
6. I write my own material or I use what I find on the internet that I consider is useful to my students.
7. Some easy to use technologies are used to enhance the understanding of the learning experience, and to remember what we learn in class.
8. Through discussion of Spanish culture, students will get a better understanding of the language.
9. I send the material we use in class before the class starts.
10. I send a summary of the things we did in class.
11. I take into account the learning speed of my students.
12. By adapting my language to the level of my students, I encourage them to speak and understand the language from the beginning.
13. The use of English is limited to complete beginners in order to clarify concepts or when it is necessary.

Technologies I use:

Google docs, Prezzi (presentations), Quizlet (vocabulary), youtube o vimeo, podcast, lecturas, interactive exercises from different webs in Spanish.

¡Hasta luego! Delia
